AERONAUTS CHILLED BY COLD

Low Temperature Partially Accounts for Balloon Accident

Center, Ky., May 12.—A snowstorm encountered at an altitude of 20,000 feet which so benumbed the aeronauts that they had trouble with a rip cord and lost control of their balloon was the cause of the accident to the Viking near here Tuesday night, when A. Holland Forbes of Bridgeport, Conn., vice president of the Aero club of America, and J. G. Yates of New York, after a flight of 400 miles from Quincy, Ill., were severely hurt by a sudden drop to earth. The shock was such that both aeronauts were not only bruised but stunned, though both will recover. The balloon was partly wrecked. The Viking fell very rapidly from a great height and seems to have shot through the final 100 feet of space like a stone.

The aeronauts were both unconscious all last night but this condition was due at least as much to the cold as to the fall. The men are being cared for at the farm of Tilden Boston, to whose house they were carried when they were picked up out of the wreck of their machine, and who found in Mr. Forbes' pocket a note asking that in case of accident the New York Times be notified. Mr. Forbes and Mr. Yates are both confined to their beds but they say they expect to be able to travel within a few days.

SICK DRUGGISTS

What They Do When THEY HAVE have Kidney Disease.

Druggists know that "Kidney trouble" is "inflammation of the kidneys" and that if it doesn't yield promptly it becomes chronic, which the books declare to be incurable. Hence they don't lose much time with so-called kidney medicines.

W. H. Bell, the leading druggist of Live Oak, Fla., went to the Atlanta specialist, Dr. W. M. Durham to treat his kidney disease. He had it in such a serious form that he wanted the best. He also went to Dr. C. Drew, the leading physician of Jacksonville, Fla. All efforts failed and the dropsical stage began.

He then sent to California for the Fulton treatment.

The seventh month thereafter he wrote as follows:

"I am doing finely, the swelling is all out and I am 100 per cent better. Mrs. R. W. Price of this city also had serious kidney disease, and could not turn over in bed. I told her about the treatment. She took it and is now doing her own work again and says she is well. Another lady here had kidney disease all her life and could not get out much. I put her on the treatment and she is well too."

How can people doubt the curability of chronic kidney disease in view of the constant stream of testimony like the above?

For inflammation of the kidneys, whether called "kidney trouble," Nephritis or Bright's Disease, get Fulton's Renal Compound.

Druggist Bell sent across the Continent for it. Isn't this a strong pointer for the uninitiated?
